

AUSDOM BLUETOOTH HEADSET

Model: **ANC1**

Features:

Professional ANC Technology: The ANC1 adopts two high-sensitivity noise reduction microphones, which are processed by chip algorithm to neutralize the external noise curve. Thus it achieves the effect of reducing the environmental noise that can makes the music more purer.

Astonishing Sound Quality: Dual two large 40MM drivers. The sound quality is enhanced as well since we upgraded the headphone speakers. It sounds well-balanced with a decent level of bass and shows a great performance from mids and treble.

Supports Wireless mode and Wired mode: The ANC1 features the most stable wireless 5.0 technology, which is twice faster in transmission rate and 8 times wider in ban width than V4.2. With wired mode, users do not need to worry about running out of power.

Adjustable Headband: Adjustable headband and ergonomic design promises the comfortable wearing experience, in order to make it suitable for more people.

24H Battery Life: Built-in 500mAh rechargeable battery provides up to 24h and support all day play.
