

FC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any Change or modification not expressly approved by the manufacturer voids the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the following requirements, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment does not use and radiates radio frequency energy either, if not installed and used in accordance with the instructions.

However, if you install or use the equipment in a manner that causes harmful interference to radio communications, however, you may be required to take certain remedial actions, such as:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

The equipment has been evaluated to meet general RF exposure requirements. The device can be used in portable equipment condition without restriction.
